

A PHONE SYSTEM LIKE NO OTHER.

If your practice phone system hasn't changed in a decade, you're missing out on countless ways to save money, make your front desk more productive, and connect with patients. Built specifically for dental practices, RevenueWell Phone blends enterprise-grade phone service with the awesome patient communication features every practice should have.

Be More Productive

Take the hassle out of managing practice communications.

- Automatic call routing
- Send and receive faxes electronically
- Get voicemails delivered to email
- On-the-go answering with mobile app

Interact Like Best Friends

Become your patients' best friend and personalize each conversation.

- Greet patients with important info
- See who's calling before answering
- Text instead of calling if they prefer
- Custom hold music and messages

All the Features You Need to Succeed

Get enterprise-grade features for less than you pay now. RevenueWell Phone uses state-of-the-art VoIP technology that gives you the flexibility you want for less than the price of a traditional landline phone service.

Custom Greetings	Line Failover	Auto Attendants

Meet Screen Pop, A Smarter Caller ID for your Practice

Save Time at the Front Desk

Stop asking "How do you spell that?" or navigating multiple practice management software windows to get to basic patient information. Screen Pop brings demographics, insurance details, and appointment history right to your desktop.

Get More Done on Each Call

Screen Pop organizes quick tasks in a simple view—such as capturing missing information, collecting overdue balances, and scheduling family members. This way you never have to call the patient back with something you wish you had mentioned but forgot.

Improve the Patient Experience

With Screen Pop, you can sound like each patient's best friend any time they call. Greet them by their first name, wish them a happy birthday, and answer all their questions on the spot without having to hunt around for relevant details.
