You'll love faster payments and smoother operations

A 2019 survey revealed that 54% of patients said they made online payments within 48 hours of receiving a notice. Translation: you'll get paid faster. Even better, get paid with far less effort when you eliminate manual entry and monthly reconciliation tasks.

And your patients will love the convenience

In that same survey, it was shown that while 62% of healthcare patients preferred to pay by credit or debit card, less than half of the practices in the survey offered online payment options. By adding this simple convenience to your patients' lives, you'll inspire their loyalty.

Why wait? Take advantage of this terrific offer today and give yourself a break from manual processes and your patients the ease of paying online via credit, debit, chip cards, digital wallets, HSA and FSA.
